MOTIVATION LETTER

Dear green friends,

My name is Agneta Börjesson and I would like to put forward my candidature to the EGP conciliation panel.

I have been active at various levels within the Swedish Green Party, and have almost since the party was created in 1981 been active in helping to build the party at various levels. Both as chairperson (locally and regionally), as deputy convener of the party board, and not least as secretary general. When the Swedish Green Party had a formal cooperation with the then Social democratic minority government, I worked as head of office for the first group of green employees in the Government office. In that capacity, I negotiated with the Social democrats and the Left Party on various issues on a nearly daily basis. In 2010 I was elected MP, so now I am a member of the Green group in the Swedish Parliament.

Having been a member of the EGP ad interim conciliation panel, I realize that a major purpose of the panel is conflict management. This is something I have experience from in my various positions as manager, chairperson on various committees and as secretary general for the Swedish Green Party.

I have been involved in party development for a long time. I am delighted to see more and more green parties grow stronger and stronger, and I'd like to make a contribution to better and smarter organizational structures and enhanced democratic frameworks.

Kindest regards,

Agneta Börjesson
