

Amendments submitted to the draft resolution "Stop Exploration and drilling of fossil fuels in Adriatic Sea"

No	Party	Lines	Action	Current Text	Proposed Amendment	Explanation/Comment
1	Groen	15	replace	The whole of this process was done so...	The whole process was conducted...	drafting point
2	Groen	21	replace	hydrocarbons have been presented the last few years that are awaiting a green light from the Italian Government.	the presence of hydrocarbons has been confirmed in recent years awaiting the green light for exploitation from the Italian Government.	drafting point
3	Groen	22	replace	These will be favored	This will be favored	drafting point
4	Groen	28-30	replace	This study was not recognised as being valid by marine and environmental experts, due to the fact that possible risks were not foreseen to an enough extent.	This study was not accepted by marine and environmental experts, due to the fact that possible risks were not taken into account at a sufficiently high extent.	drafting point
5	Groen	41	replace	yearly GDP	annual GDP	drafting point
6	Groen	42-43	replace	hundreds of thousands who depend off of fisheries.	hundreds of thousands who depend on fisheries for their livelihood.	drafting point
7	GGEP	44	delete	A landscape that is spoiled by unsightly oil platforms would also discourage tourists from visiting the Adriatic.		The whole sentence, because the same argument could be used against off-shore wind parks
8	GroenLinks	60	delete	Before such investments begin,		We think such investments should NOT begin and do not want to install the impression that they could after criteria are met.
9	Groen	61	replace	Croatia and Italy should obey at least two international conventions...	Croatia and Italy should comply with at least two international conventions...	drafting point

No	Party	Lines	Action	Current Text	Proposed Amendment	Explanation/Comment
10	GGEF	69	add	3. Put in the utmost effort to preserve the natural heritage of the Adriatic Sea, for the sake of citizens in the region, and the rest of the world.	3. Put in the utmost effort to preserve the natural heritage of the Adriatic Sea, for the sake of citizens and sustainable tourism development in the region, and the rest of the world	
11	Groen	74	add		Furthermore, the European Greens ask from their MEPs to urge the European Commission to investigate compliance, or the lack of it, by Croatia and Italy of the Environmental Impact Assessment (EIA) Directive (2201/92/EU) as modified by Directive 2014/52/EU.	This is European legislation, hence, much more binding than international UN Conventions.
