

CAS Amendments to R7: Recovering from Covid-19, building a sustainable tourism sector across Europe

Nr.	Nº	Tabled by	Original text	Proposed amendment	CAS Decisions
1	AM-1-8	Federation of Young European Greens	The COVID-19 crisis has tragically proven the vulnerability of some European countries when their economic development relies, either essentially or for an important part, on tourism. This is especially true when it comes to the coastal and remote areas of some countries, such as Croatia, Cyprus, France, Greece, Italy, Malta, Portugal and Spain, as well as, even if with less immediate effects, in some attractive cities, such as Athens, Paris, Rome, etc.	<p>From line 1 to 6:</p> <p>The COVID-19 crisis has tragically proven the vulnerability of somethose European countries when their economic development relies, either essentially or for which tourism is either an essential or important part, on-tourism factor in their economy or economic development. This is especially true when it comes to the coastal and remote areas of some countrieslarger countries or entire island states, such as Croatia, Cyprus, France, Greece, Italy, Malta, Portugal and Spain, as well as, even if with less immediate effects, in some attractive citiescities with famous historic and cultural attractions, such as Athens, Paris, Rome, etcandRome, amongst others.</p>	<p>CAS accepted as amended (AM1, AM3, AM4) :</p> <p>The COVID-19 crisis has tragically proven the vulnerability of those European countries, regions and communities for which tourism including congress tourism is either an essential or important factor in their economy or economic development. This is especially true when it comes to the coastal and remote areas of larger countries or entire island states, such as Croatia, Cyprus, France, Greece, Italy, Malta, Portugal and Spain.</p>
2	AM-6-1	Europe Ecology - Les Verts	Italy, Malta, Portugal and Spain, as well as, even if with less immediate effects, in some attractive cities, such as Athens, Paris, Rome, etc.	<p>Insert from line 5 to 6:</p> <p>Italy, Malta, Portugal and Spain, as well as, even if with less immediate effects, in some attractive cities, such as Athens, Paris, Rome, etc.</p> <p><u>The COVID crisis dangerously threatens the mutual systems of travel agencies and tour-operators compulsory financial guarantees and insurance mecanism. Europ has to find and propose solutions to securize these mutual systems. taking care of the country's particular situations. in way to protect the european consumers AND guarantee the right and operating possiblity of the tourism operators</u></p>	<p>CAS accepted as amended</p> <p>Compromise Amendment for AM2 and AM10. To be added in line 20 after "poverty;" "special attention should also be given to micro, small and family businesses that have less resources to transition to a sustainable tourism model. Financial support and guarantees for tour-operators should be provided on the condition that they commit to shifting to a more sustainable tourism model adapted to countries' specific situations and which protects the rights of European travellers;"</p>

16	AM-44-1	Ecolo	and the support to local communities with the knowledge and means to realise their strengths, away from tourism, and utilise them to their own benefit;	Insert from line 43 to 45: and the support to local communities with the knowledge and means to realise their strengths, away from mass tourism, and utilise them to their own benefit;	accepted
17	AM-48-1	GroenLinks	The limitation of Airbnb to one accommodation per owner for 60 nights;	In line 48: The limitation of Airbnb to one accommodation per owner for 60 nights a limited number of nights. The exact number of nights should be tailored to local needs and circumstances ;	CAS accepted AM 17-18-20: " - The limitation of Airbnb-accommodation to one accommodation per owner for a limited number of nights to prevent the erosion of the rental housing market and competition with the original small scale 'peer to peer' accommodations, and regulated working arrangements to avoid exploitation of workers in this grey zone. I - Ensure that municipalities and regions can take such necessary regulatory measures to prevent the negative ecological and socioeconomic impacts of the current touristic model, without hindrance from higher tiers of government and counterproductive legislation."
18	AM-48-2	Esquerra Verda	The limitation of Airbnb to one accommodation per owner for 60 nights;	Insert after line 48: Ensure that municipalities and regions can take such necessary regulatory measures to prevent the negative ecological and socioeconomic impacts of the current touristic model, without being hindered by higher administrative instances and counterproductive legislation, as would be for instance the case with the intended Services Notification Procedure directive at EU level The promotion of touristic models and activities that foster local quality jobs	I - Ensure that municipalities and regions can take such necessary regulatory measures to prevent the negative ecological and socioeconomic impacts of the current touristic model, without hindrance from higher tiers of government and counterproductive legislation."
19	AM-51-1	Esquerra Verda	national plans to combat pollution in coastal areas and restore them;	Insert after line 51: Regional Plans to adapt current tourism infrastructures to other potential needs.	withdrawn

Nr.	Nº	Tabled	Original text	Proposed amendment	CAS Decisions
20	AM-58-1	Vihreät - De Gröna	the rich history and heritage of the area they are visiting.	<p>Insert after line 58:</p> <p>As a major part of Airbnb-accomodation has been transformed from the original "peer to peer" transactions into a regular larger scale business. a large part of scarce rental housing stock has been moved outside the normal rental system. This is most visible in hot spots like Amsterdam and Venice, but significant also in places with much less tourism, leaving local inhabitants with less rentals, higher rents and socially more fragile neighborhoods. To prevent the erosion of the rental housing market, "industrialised" Airbnb-business should be regulated. Also workers in this grey zone can easily be exploited outside the established and regulated working arrangements.</p>	covered in CAS AM 17-18-20
21	AM-58-2	Miljöparti et de gröna	the rich history and heritage of the area they are visiting.	<p>Insert after line 58:</p> <p>Assistance for a just transition to other sectors for people and communities currently dependent on unsustainable tourism.</p>	accepted
22	AM-59-1	Groen	Tourism is the main development 'tool' in many parts of the world, but it is also an important component in the overall production of greenhouse gas emissions. This is why it is imperative now to apply environmental practices both in tourist accommodation and across the rest of the tourism activity 'grid'. After all, promotion of the environmental character of tourism in accommodation or a location brings more tourists and better prices.	<p>Delete from line 59 to 64:</p> <p>Tourism is the main development 'tool' in many parts of the world, but it is also an important component in the overall production of greenhouse gas emissions. This is why it is imperative now to apply environmental practices both in tourist accommodation and across the rest of the tourism activity 'grid'. After all, promotion of the environmental character of tourism in accommodation or a location brings more tourists and better prices.</p>	Accepted CA2 Proposal (AM22 - AM25): "Despite the important role of tourism in contributing to local economies, the proliferation of mass tourism, particularly through cheap flights has a drastic environmental impact. This is why it is imperative to shift from mass tourism to sustainable tourism, and therefore apply green practices and standards across the sector. Likewise, tourism can also contribute to achieving Sustainable Development Goals. The COVID-19 recovery plan offers the opportunity to accelerate this shift and ensures that a sustainable
