13	AM-21-1	Federation of Young European Greens	the Russian Armed Forces and those committing human rights violations and war crimes must be held accountable under international law.	Insert from line 20 to 21: the Russian Armed Forces and those committing human rights violations and war crimes must be held accountable under international law. We support the ongoing proceedings of the I.C.J. case on allegations of genocide as well as the ICC investigation of genocide, crimes against humanity, and war crimes: we further support the individual investigations of genocide committed by Russia against the Ukrainian people launched by the EU Joint Investigation Team and individual European countries and the legal support and coordination of investigations such as by the Atrocity Crimes Advisory Group.	Further expands and concretises demand, adds further legal focus.

In general, sanctions that are not targeted can hardly be effective.
15	AM-24-1	Federation of Young European Greens	to uphold and to implement further sanctions against the Russian Federation, and specific individuals, as swiftly as possible and urge Member States to show unity regarding the sanction packages.	Insert from line 23 to 25: to uphold and to implement further sanctions against the Russian Federation, and specific individuals such as officials who hold some degree of influence, accountability or culpability in this war, for example oligarchs, business leaders, military leaders and government officials , as swiftly as possible and urge Member States to show unity regarding the sanction packages.	We find it important to specify the type of individuals we mean here, and not leave it vague to the point that it is open to interpretation that any individual could be sanctioned.
16	AM-25-1	Cyprus Greens - Citizens Cooperation	Member States to show unity regarding the sanction packages.	Insert after line 25: Call on the EU institutions, the United Nations, the Organization for Security and Cooperation in Europe and other international players to strengthen their efforts to end the war and bring about a lasting peace.	This proposed text is based on point 1 of the previous resolution and is suggested for the same reason as the previous amendment.

Insert from line 24 to 25: Federation, and specific individuals, as swiftly as possible and urge Member States to show unity regarding the sanction packages. Continue to call for an immediate and full embargo on Russian imports of fossil fuels and uranium, and for the Nord Stream 1 and 2 pipelines to be completely abandoned, in order to stop financing Putin's war machine with EU money.	
18	AM-27-1	Cyprus Greens - Citizens Cooperation	Call on the EU institutions and the Member States, as well as EU partners, to provide all the necessary support to Ukraine, including delivery of necessary arms.	From line 26 to 28: Call on the EU institutions and the Member States, as well as EU partners, to swiftly provide all the necessary support to Ukraine, including delivery of the necessary arms financial assistance, and military support for defending itself against Russian attacks [Space].	The proposed wording is in line with the wording of the previous resolution (point 3). An explicit reference to financial assistance to Ukraine also in this resolution is timely in view of the discussion at the meeting of the Economic and Financial Affairs Council Council on 6 December 2022. https://www.consilium.europa.eu/en/meetings/ecofin/2022/11/08/
19	AM-27-2	BÜNDNIS 90/Die Grünen	Call on the EU institutions and the Member States, as well as EU partners, to provide all the necessary support to Ukraine, including delivery of necessary arms.	Insert from line 26 to 28: Call on the EU institutions and the Member States, as well as EU partners, to provide all the necessary support to Ukraine, including the delivery of necessary arms the Ukrainians need to defend their country, and recapture annexed or occupied territories.	
20	AM-28-1	Groen	to provide all the necessary support to Ukraine, including delivery of necessary arms.	From line 27 to 28: to provide all the necessary support to Ukraine, including delivery of necessary arms military support.	We have adopted a similar resolution during the 2022 Riga Council and it is therefore suitable to adopt the same language in this resolution. Besides, military support does not need to be about arms and weapons all the time.
21	AM-28-2	Federation of Young European Greens	to provide all the necessary support to Ukraine, including delivery of necessary arms.	Insert from line 27 to 28: to provide all the necessary support to Ukraine, including delivery of necessary arms intelligence and technological assistance. Moldova and Georgia within their internationally recognised borders. Commit to providing support and accelerating efforts to end occupations in these countries and to resolve any remaining territorial disputes.</p>	Believe these should be two separate points. The previous item refers to potential for future EU accession. We do not deny the right of the countries listed to decide on that without external interference - from Russia or elsewhere, but the need to end the occupations in those countries and find peaceful resolution for territorial disputes is also a distinct item - needs to be done for its own sake - not because they may in future begin accession to EU.
