

APPLICATION AS A CANDIDATE TO THE EGP CONCILIATION PANEL

Dear friends,

The European Green Party faces huge challenges in the upcoming years. More than ever we are in need of a functioning organization promoting our common goals on the European level. In support of this I would be very happy to apply my professional experience of 15 years in Green Party structures and with the Young Greens to continue to serve as a member of the EGP Conciliation Panel, which I am since 2012.

Due to my engagement with the German Green's Working Group on Europe from 2003 onwards I have very closely followed the transformation and further development of the European Federation of Green Parties to today's European Green Party and respectively attended a great number of EGP meetings. Besides the EGP I am also very familiar with the Federation of Young European Greens (FYEG) which mostly owes to my former post as the spokesperson of the German Young Greens from 2006 to 2008.

During my political activity in different party structures I have actively worked on drafting or amending new statutes. Certainly the biggest issue in this regard was the negotiation on the Global Young Greens' statutes in 2007 where absolutely different ideas and positions of young Greens from all around the globe had to be brought together and conflicts relating to the negotiation process had to be conciliated.

For the European Green Party I would be happy to serve as a member of the conciliation panel and if necessary spend my rare time (as I am Member of the European Parliament since 2009 and Vice Chair of the Committee on Civil liberties, Justice and Home affairs since 2014) according to the panel's aims – although I of course hope that ultimately there will not be any necessity for this.

Yours, Jan
